

Meet 6

Date: 2013-12-04

Facilitator: Linnéa Andersson

Participants: Johan Gerdin, Andreas Wahlström, Linnéa Andersson, Erik Arnebäck

1. Objectives:

- Specify the MVC
- Discuss the groupdynamics

2. Reports:

NA

3. Discussion items:

We are going to use MVC where the model is the anlysis-model and the View is the Andengine. We will discuss more about the controller later.

We are going to have the Box2D in our model. (Universe or Level-class)

To keep the groupdynamic good, we will talk to eachother and listen to what everyone has to say. Every week we will assign tasks to each of us, so we always have something to do.

4. Outcomes and assignments:

- Eric - Startmeny
- Andreas - Universe, Level
- Linnea - Entity, BlackHole, Player, Enemy
- Johan - Obstacle, Planet, PowerUp

5. Wrap up

(Next meeting on saturday 13/4 -13) change meeting to 16/4 -13
