

Möte 2

Date: 2013-24-03

Facilitator: Andreas

Participants: Johan Gerdin, Andreas Wahlström, Erik Arnebäck

1. Objectives:

AndEngine

2. Reports:

AndEngine almost up and running for most of the current participants.

Domain "finished".

A few User case started.

Model skiss started.

3. Discussion items:

Decided that the first user case needs to be movement, because you can't do anything without moving.

Generall discussion about domain and model

4. Outcomes and assignments:

Work on the first user cases and work more on the model.

Get AndEngine up and running.

Take a look at the RAD and see if we can start writing.

5. Wrap up

Wednesday 27/3-13
