**Möte 2**

Date: 2013-24-03

Facilitator:  Andreas

Participants: Johan Gerdin, Andreas Wahlström, Erik Arnebäck

1. Objectives:
    AndEngine

2. Reports:

    AndEngine almost upp and running for most of the current participants.
    Domain "finished".
    A fewUser case started.
    Model skiss started.

3. Discussion items:

    Decided that the first user case needs to be movement, becouse you can't do        anything without moving.

    Generall discussion about domain and model

4. Outcomes and assignments:

    Work on the first user cases and work more on the model.
    Get AndEngine up and running.
    Take a look at the RAD and see if we can start writing.

5. Wrap up

    Wednesday 27/3-13
