Möte 8

Date: 18/4 -13

Facilitator: Andreas

Participants: Johan Gerdin, Andreas Wahlström, Erik Arnebäck

1. Objectives:

   Use all tools and fix whatever they complain about (Pmd, STAN, findbugs, jdeoderant).

   Change Andengine and Box2D to jar-files.

2. Reports:

   NA

3. Discussion items:

   Decided to move as much as possible from controller to model (CollisionController etc they do a bit to much).

   We need to create testClasses for everything in the model (at least one testmethod for each class).

   Decided to spend more time in school coding as a group.

4. Outcomes and assignments:

   Erik:
        Jar-files, write documents(sdd etc)
   Linnea:
        LevelTest, tool test when done
   Andreas:
        Tool testing
   Johan:
        EntityTest, tool test when done

5. Wrap up:

   Next meeting: Monday 22/4 -13
